REFERENCE LETTER

We had a pleasure to work with Lemonade Studio in the implementation of a large and comprehensive project. The company's role was to prepare 3D visualizations and animation of the modern railway station. Due to the complexity and high level of responsibility we needed a trusted partner. Having researched a number of potential providers we decided to establish cooperation with Lemonade Studio.

Most of work was done remotely so being in constant and trouble-free contact was really important for us the feedback was always instant and warm, no question was left without an answer.

Furthermore, Lemonade Studio's team has vast knowledge and experience, great sense of aesthetics and puts attention to details.

Flexibility, creative ideas and individual approach to the project are also the valuable features of this squad, that makes looking for optimal solutions possible.

We will definitely continue to cooperate with Lemonade Studio and recommend their services to anyone looking for the highest quality.

Sincerely,

Bartosz Szczucki
Projekt Manager
